Things to do:

1. **Enhance Social Media Presence:** Actively engage with followers on platforms such as LinkedIn, Facebook, Twitter, and Instagram. Make use of the different features these platforms offer like Instagram Stories, LinkedIn articles, Twitter threads, etc.
2. **Content Diversification:** Create a variety of content like blogs, success stories, interviews, podcasts, and **LinkedIn Live** that can be shared across different channels. Video content, in particular, has been proven to engage audiences effectively.
3. **Collaborate with Influencers:** Identify and engage influencers in the startup ecosystem who can advocate for KSUM. They could provide testimonials, participate in events, or contribute to KSUM's content.
4. **Improve Website User Experience:** Our website should be user-friendly, mobile-friendly, and easily navigable. It should clearly convey the mission and objectives of KSUM, highlight success stories, and provide easy access to resources and contact information.
5. **SEO Strategy:** A strong SEO strategy will help KSUM get discovered by people searching for relevant keywords. Regularly update the website and blog with SEO optimized content.

6. **Personalized Communication:** Tailor communication for different segments of our audience. Personalization can increase engagement and make our audience feel valued.
7. **Regular Newsletters:** Send out regular newsletters with updates, upcoming events, and opportunities. This can help keep our audience engaged and informed.
8. **Measurement and Evaluation:** Regularly measure the effectiveness of our communication strategy using KPIs such as reach, engagement, click-through rates, etc. This will help understand what's working and what needs improvement.
9. **Regular Feedbacks:** Actively seek and incorporate feedback from our audience/team. This can provide valuable insights for improving our communication strategy.
10. **Engage in Community Building:** Host and participate in community events, programs, or workshops to build a strong, engaged community around KSUM. This can provide a platform for networking, learning, and collaboration among startups.
